

WE WIN INSTITUTE

Thank you for **ROUNDING UP** for **WE WIN!**

Your donation will support community based education in the areas of urban agriculture, youth entrepreneurship, and social justice.

Funding will help us:

- ▶ Increase access to healthy food and sustainable urban gardening activities for underserved youth ages 5-18 and their families.
- ▶ With your help, we will integrate food sharing, community gardens, and social entrepreneurship activities.
- ▶ Increasing our reach to community in need.

WE WIN's response to COVID-19: Over the past year, WE WIN has worked with community partners to provide 15,000 pounds of food to vulnerable families, over 100 computers, internet hot spots, and supporting technology to students to continue online education; we've also made literacy a priority by distributing more than 500 children's book to encourage reading during the pandemic.

WE WIN Institute (WE WIN) is a nonprofit, community-based organization that is dedicated to the mission of creating academic and social success for all children. We are entering our 25th year of service. Since 1996, we've supported youth literacy, mentoring, and social development. WE WIN works to make our community brighter for the future!!
